ARCHITECTURAL STUDIES

建築學

Architecture is concerned with human habitation in all its aspects and on any scale, from the house to the city. It fulfills the human imperative for shelter and celebration of life by creating places for gathering, work and solitude.

建築與人類居住環境息息相關，從房屋到城市，涉及各個層面及規模。為滿足人類對居所和生活質素的追求，建築創建不同空間以供社交、工作及獨處之用。

THINK · DESIGN · BUILD

思考 · 設計 · 創建

PROGRAMME CURRICULUM

- Studio-based with a wide range of courses in humanities, technology, design computation and professional practice providing a comprehensive introduction to architecture
- A sequence of six core design studios begins in Year 2 and ends in a final studio that integrates previous knowledge and themes into a capstone architectural design project in Year 4

PROGRAMME HIGHLIGHTS

- Learn through discourse, design and discovery; develop design skills; appreciate aesthetic and ethical values
- Enrich core studies through elective courses and exploring related disciplines
- Experience other cultures via international collaborative studios, study tours abroad and student exchange programmes
- Utilise the facilities of the School of Architecture, including designated individual studio workspace, the 24/7 Architecture Library, digital fabrication labs and model-making workshops

CAREER PROSPECTS

Graduates are well-equipped to explore wide-ranging design and building-related careers. This programme can be followed by the professionally accredited two-year Master of Architecture that prepares students for a career as an architect.

課程內容

- 課程以設計工作室為基礎，並輔以其他科目如人文學、科技、電腦輔助設計及專業實踐，藉以提供一個全面的建築基礎課程
- 六個主要設計工作室自二年級開始，逐步發展至四年級最後一個工作室作結，屆時學生須結合過往學到的知識和主題，設計出具總結性的建築項目

課程特色

- 從討論、設計及發現中學習；發展設計技巧；提高審美與道德修養
- 透過修讀選修科及探索相關學科，使建築學的專業修習更加充實
- 透過國際性的建築設計工作室、海外遊學團和交流計劃，加深學生的文化體驗
- 享用建築學院多項專門設施，包括24小時開放的建築學圖書館、數碼設計工作室、模型製作室，以至為每位學生分配的設計工作空間

就業前景

全面的教學方針，讓畢業生得以廣涉與建築設計相關的行業。完成課程後，學生可繼續修讀獲專業認可的兩年制建築學碩士學位課程，為他們作為職業建築師做好準備。

ECONOMICS

經濟學

Economics is the study of how people and society optimise with limited resources. Economists use a set of theoretical and quantitative tools to assess the impact and optimality of different decisions.
